

Part 2:

The Idaho Department of Lands 2004 National Fire Plan Programs Report

For over fifty years, a strong partnership has existed in Idaho between the Idaho Department of Lands and the State and Private Forestry branch of the United States Forest Service. These partners work together to deliver four programs to achieve the goals of the National Fire Plan in Idaho. During 2004, these four programs included:

1. **The Idaho Department of Lands State Fire Assistance Hazardous Fuels Treatment Program**
2. **The Idaho Department of Lands National Forest Adjacent Community Fire Protection (Formerly Stevens) Hazardous Fuels Treatment Program**
3. **The Idaho Department of Lands Volunteer Fire Assistance Program**
4. **The Fuels for Schools Program**

1. IDL State Fire Assistance HFT Program (IDL/FS SFA Program)

The IDL-HFT program is the primary incentive program at work in Idaho for landowner assistance with reduction of hazardous fuels on non federal lands. Federal funds for this program are allocated from the Forest Service to the Idaho Department of Lands under the cooperative fire authority, State Fire Assistance. This is a cost-share program, with the State providing a match to federal funds.

2004 SFA Process:

September 15	Counties and Communities
2004 Grant Application due to Idaho Department of Lands Area Supervisors. Area Supervisors names and addresses, grant objectives, criteria, and applications available at www.idaho.gov/lands .	
October 1	IDL Area Supervisors
Submit reviewed grant applications from Counties and Communities to HFT Manager, at the IDL Coeur d'Alene office. (Review guidance to Area Supervisors will be sent under separate cover.)	
October 1-3	IDL HFT Manager, Fire Plan Coordinator, Bureau Chief
Review submitted grant applications to see if any may qualify for other available assistance programs in Idaho, such as the "Hazardous Fuels Reduction Work Near National Forest Lands" program.	
October 6-10	Idaho State Fire Plan Working Group
Review and prioritize grant applications.	
October 17	IDL HFT Manager
Submit applications to the Western State Fire Managers (WSFM) Competitive Grant Program.	
March 1	IDL HFT Manager
Notification of successful grant recipients in Idaho from WSFM national process. Notify successful grant recipients. Develop Memorandum of Understanding (MOU) and appropriate financial documentation with successful grant recipients	

2004 SFA Awards:

County	Grant Recipient	Granting Agency	2004	Project
Adams	MeadowCreek HOA	IDL/FS SFA	\$36,000.00	Hazardous Fuels Treatment
Benewah	Benewah County	IDL/FS SFA	\$360,000.00	Hazardous Fuels Treatment
Bonner	Bonner County	IDL/FS SFA	\$216,000.00	Hazardous Fuels Treatment
Boundary	Boundary County	IDL/FS SFA	\$290,000.00	Hazardous Fuels Treatment
Idaho	BPC VRFD	IDL/FS SFA	\$17,800.00	Hazardous Fuels Treatment
Multi-County	Three Rivers RC&D	IDL/FS SFA	\$472,000.00	Hazardous Fuels Treatment
Shoshone	Shoshone County	IDL/FS SFA	\$350,400.00	Hazardous Fuels Treatment
Teton	Teton County FPD	IDL/FS SFA	\$61,000.00	Hazardous Fuels Treatment
Valley	GAPOO HOA	IDL/FS SFA	\$43,500.00	Hazardous Fuels Treatment
Valley	McCall, City of	IDL/FS SFA	\$16,800.00	Hazardous Fuels Treatment
Washington	West Central Highlands RC&D	IDL/FS SFA	\$210,000.00	Hazardous Fuels Treatment
Total			\$2,073,500.00	

2. IDL National Forest Adjacent Community Fire Protection (Formerly Stevens) HFT Program (IDL/FS NFA)

The Western States had formerly referred to another type of federal hazardous fuels reduction dollars as “Stevens” funds in recognition of Senator Ted Stevens of Alaska who sponsored this authority. We now know this program as “Community Fire Protection”. These monies are actually federal hazardous fuels reduction funds that may be used on either the National Forests or, at the discretion of the Forest Service Regional Forester, used for work on non federal lands adjacent to National Forest projects. There is no required match with these funds, though projects with local investment are encouraged. The following language was included in the initiating legislation (the 2002 appropriations bill) and applies today in reference to these funds:

- “...may be used on adjacent non-Federal lands for protecting communities when hazards reduction is planned on national forest lands that have the potential to place such communities at risk...”
- “...to plan and implement projects specifically designed to protect communities from wildland fires where and when hazardous fuel reduction activities (prescribed fire) on NFS lands have the potential to place these communities at risk from wildland fire...”
- “...the time between project initiation on NFS lands and non-Federal lands should not exceed 3 years...”
- “Projects should focus on the most high-risk areas to decrease risks to the community, rather than scattered in numerous projects...”

2004 NFA Community Fire Protection (Formerly Stevens) Process:

NATIONAL FOREST ADJACENT Community Fire Protection GRANT PROCESS (Formerly Stevens)		
MAY/JUNE 2004		
DATE	EVENT	WHO NEEDS TO DO WHAT
MAY 3	APPLICATION DEADLINE	IDL Fire Bureau to copy applications, summarize, send out to IDL Areas, FS Forest Supervisors, and State Working Group for review.
MAY 10	APPLICATIONS BY AREA/FOREST OUT FOR LOCAL PRIORITIZATION AND COMMENT	IDL Area Supervisors (or Wardens), FS Forest Supervisors (or Forest FMO's) review applications from within your Area/Forest.
MAY 20	CONFERENCE WITH AREA SUPERVISORS AND FOREST SUPERVISORS	IDL Area Supervisors and FS Forest Supervisors conference call to recommend projects for prioritization at 1300 PDT
MAY 21	CONFERENCE WITH IDAHO STATE FIRE PLAN WORKING GROUP - RECOMMENDATIONS	Idaho State Fire Plan Working Group conference call to recommend prioritization of grants at 1300 PDT
MAY 24	PRESENT TO DIRECTOR FOR REVIEW/APPROVAL	IDL Fire Bureau present recommendations to State Forester for final approval
JUNE 1	NOTIFICATION TO SUCCESSFUL GRANT RECIPIENTS	IDL Fire Bureau to notify successful recipients by phone and e-mail. Work out details of MOUs and agreements.

2004 NFA Community Fire Protection Grant Awards (Formerly Stevens)

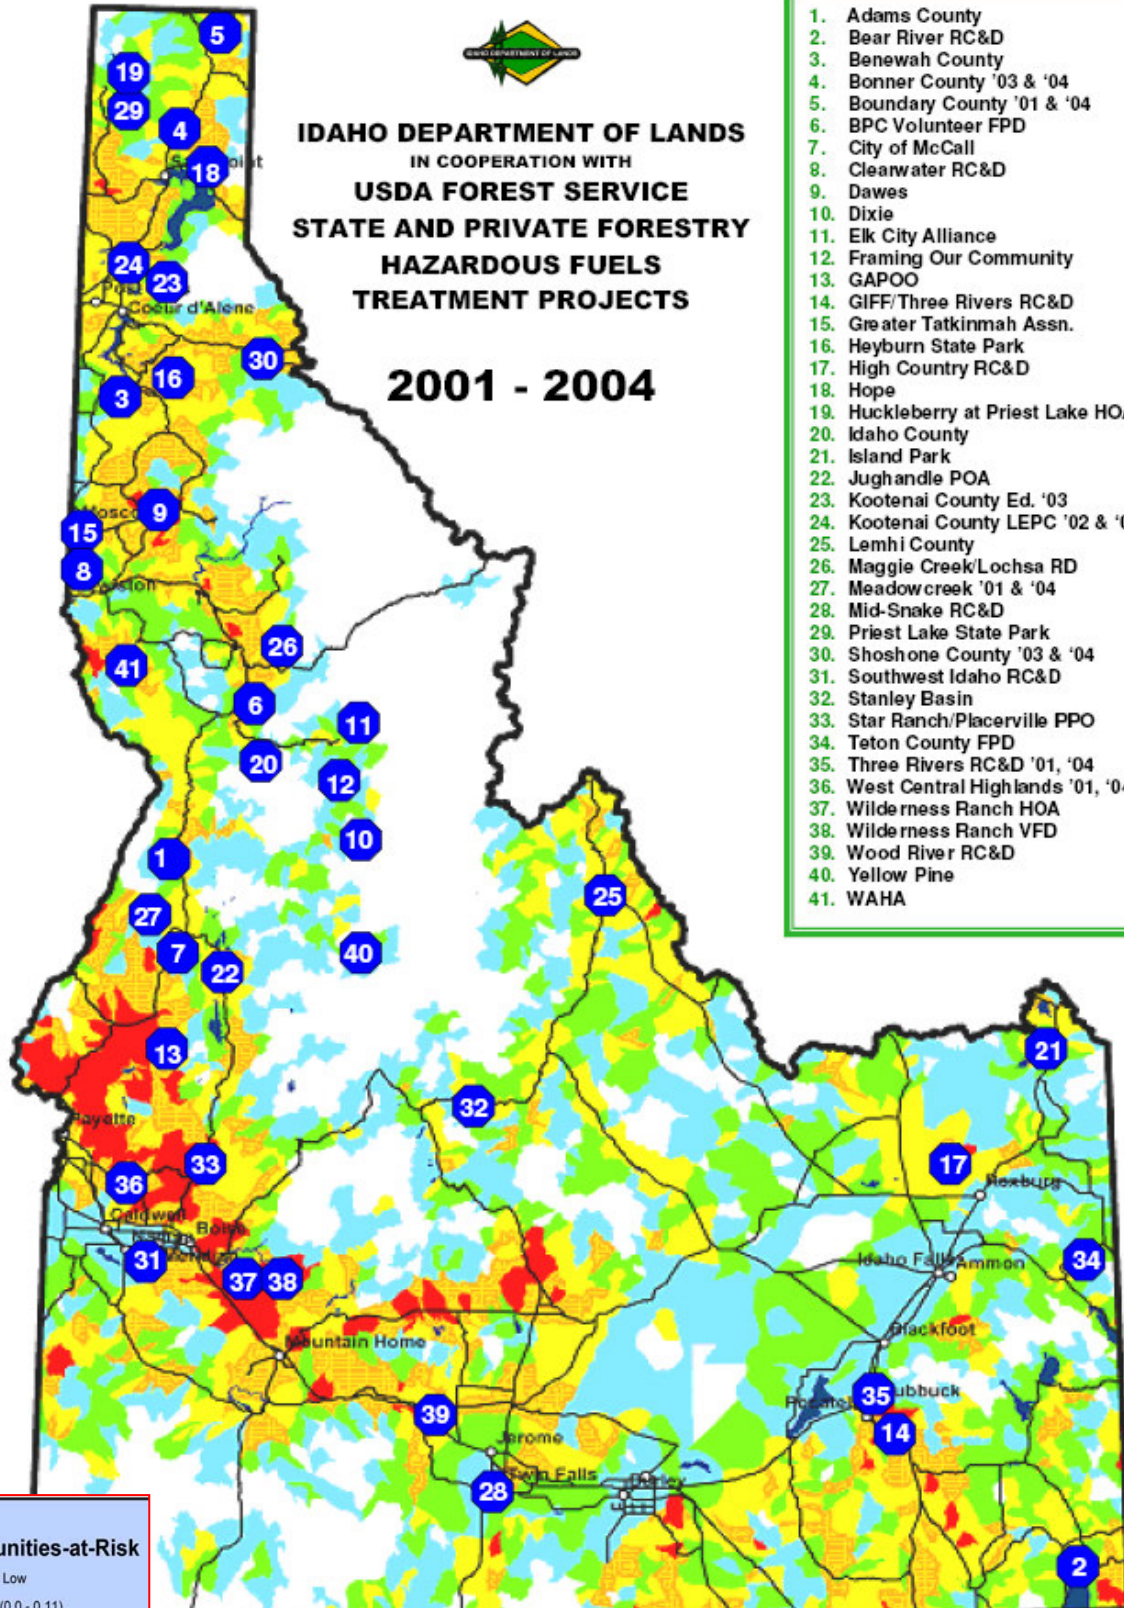

County	Grant Recipient	Granting Agency	2004	Project Description
Adams	Adams County	IDL/FS NFA	\$84,000.00	Hazardous Fuels Treatment
Boise	Star Ranch/Placerville	IDL/FS NFA	\$85,000.00	Hazardous Fuels Treatment
Bonner	Bonner County	IDL/FS NFA	\$264,850.00	Hazardous Fuels Treatment
Idaho	BPC VRFD	IDL/FS NFA	\$8,400.00	Hazardous Fuels Treatment
Idaho	Framing Our Community Inc.	IDL/FS NFA	\$30,500.00	Hazardous Fuels Treatment
Idaho	Idaho County	IDL/FS NFA	\$60,000.00	Hazardous Fuels Treatment
Lemhi	Lemhi County	IDL/FS NFA	\$7,000.00	Hazardous Fuels Treatment
Lewis	IDL Maggie Creek/FS Lochsa RD	IDL/FS NFA	\$2,000.00	Hazardous Fuels Treatment
Multi-County	GIFF/Three Rivers RC&D	IDL/FS NFA	\$17,000.00	Hazardous Fuels Treatment
Shoshone	Shoshone County	IDL/FS NFA	\$230,250.00	Hazardous Fuels Treatment
			\$789,000.00

HAZARDOUS FUELS TREATMENT GRANTS MONITORING REPORT

State Fire Assistance and National Forest Adjacent Community Fire Protection (*Formerly Stevens*)

PROGRAM: HFT/SFA <input type="checkbox"/> HFT/NFA <input checked="" type="checkbox"/>		DATE: March 1, 2005
Project Name: Adams County		
Project/Grant No.: 04NFA4 02	Location: R1ET20N and R1ET21N Circle C PUD Area, Adams County	
Grant Year: 2004		
Start Date: Not begun as of 11/04	Latitude: 45 degrees 7 minutes Longitude: 116 degrees 22 minutes	
Completion Date:		
Project Manager: Don Horton		
E-Mail: building@co.adams.id.us	Phone: 208-253-6125	
Award Amount: \$84,000	Adjacent to: FS Project: <input checked="" type="checkbox"/> Name of Adjacent Project: Payette NF, Middle Little Salmon Project	
Total Structures Treated (Proposed): 20 Total Structures Treated to Date: 0	Total Acres Treated (Proposed): 42 Total Acres Treated to Date: 0 Average Cost per Acre \$ 1000.00 Estimated	
Project Partners: US Forest Service, Idaho Department of Lands, Northwest Management, Inc., SITPA, BLM		
Purpose Summary: Treat fuels to reduce fire risk on non-federal land adjacent to the Middle Little Salmon Vegetation Management Project of the USFS.		

PROGRAM: HFT/SFA <input checked="" type="checkbox"/> HFT/NFA <input type="checkbox"/>		DATE: March 1, 2005
Project Name: Bear River RC&D		
Project/Grant No.: 01SFA4 11	Location: Bear River RC&D area which includes Bear Lake, Oneida, Franklin, and Caribou Counties.	
Grant Year: 2001 - Awarded 2003		
Start Date: May 2005 (planned)	Latitude: 42 Degrees 15' North Longitude: 111 Degrees 25' West	
Completion Date: August 2005 (planned)		
Project Manager: Scott Ferguson		
E-Mail: Scott.Ferguson@UT.usda.gov	Phone: 435-753-3871 ext. 34	
Award Amount: \$31,500	Adjacent to: FS Project: <input type="checkbox"/> Name of Adjacent Project:	
Total Structures Treated (Proposed): 30-50 Total Structures Treated to Date: 0	Total Acres Treated (Proposed): 1 Total Acres Treated to Date: 0 Average Cost per Acre \$	
Project Partners: Idaho Community Forester, AmeriCorp		
Purpose Summary: Train three AmeriCorp workers to perform home evaluations for protection against wildfire. Twelve weeks of home evaluations within RC&D area. Conduct one fuels reduction demonstration project. One week entering field data utilizing Red Zone Software		

HAZARDOUS FUELS TREATMENT GRANTS MONITORING REPORT

State Fire Assistance and National Forest Adjacent Community Fire Protection (*Formerly Stevens*)

PROGRAM: HFT/SFA <input checked="" type="checkbox"/> HFT/NFA <input type="checkbox"/>		DATE: March 1, 2005
Project Name: Benewah County		
Project/Grant No.: 04SFA 13	Location: Benewah County, Idaho	
Grant Year: 2004		
Start Date: Has not begun as of 11/04	Latitude: 47.208°N Longitude: 116.625°W	
Completion Date:		
Project Manager: Janet Samford		
E-Mail: jsam@benewahcounty.org	Phone: 208-245-5331	
Award Amount: \$360,000	Adjacent to: FS Project: <input type="checkbox"/> Name of Adjacent Project:	
Total Structures Treated (Proposed): Total Structures Treated to Date:	Total Acres Treated (Proposed): 315 Total Acres Treated to Date: 0 Cost per Acre: Proposed less than \$1,000	
Project Partners: Coeur d'Alene Tribe, City of St. Maries, Potlatch Corp., Timber Plus, BLM, USFS, PAC, IDL, Idaho BHS, Benewah Civil Defense, St. Maries FPD, Tensed FD, Plummer FPD, Fernwood FPD		
Purpose Summary: Protection of lives and homes through strategically placed fuels treatment projects, protection of transportation routes and escape routes, continuing public awareness program that emphasizes prevention and preparedness.		

PROGRAM: HFT/SFA <input type="checkbox"/> HFT/NFA <input checked="" type="checkbox"/>		DATE: March 1, 2005
Project Name: Bonner County		
Project/Grant No.: 03NFA1 01	Location: Bonner County - Idaho Panhandle	
Grant Year: 2003		
Start Date: July 19, 2004	Latitude: 48.833°N Longitude: 117.000°W	
Completion Date: In progress		
Project Manager: Nelle Coler		
E-Mail: nelle@pacni.org	Phone: 208-772-0584	
Award Amount: \$300,000	Adjacent to: FS Project: <input checked="" type="checkbox"/> Name of Adjacent Project: Lake Face Lamb, 57 Bear Paws, Sam Owen Peninsula	
Total Structures Treated (Proposed): 250 Total Structures Treated to Date: 18	Total Acres Treated (Proposed): Total Acres Treated to Date: 31 Average Cost per Acre: \$ 900.00	
Project Partners: IDL, USFS Idaho Panhandle National Forest, BLM, Office of Emergency Management, Bonner County Fire Chiefs Assn., Panhandle Lakes RC&D, Idaho Bureau of Homeland Security, University of Idaho, Numerous County Fire Departments and Protection Districts, Bonner County Sherrifs Office		
Purpose Summary: Carry out series of firebreak-type projects designed to protect interface housing developments and safegaurd ingress/egress while simultaneously protecting high-risk homesites. Implement education projects in the form of home evaluations, survivable space plans, Firewise workshop, and wildfire behavior.

Total Structures Treated (Proposed): Total Structures Treated to Date:	Total Acres Treated (Proposed): 22 originally Total Acres Treated to Date: will treat 15 Average Cost per Acre: \$ 1120.00 Estimated	
Project Partners: McCall Tree Committee, McCall Airport Manager, McCall FPD, McCall Cemetery, IDL, Idaho Department of Parks		
Purpose Summary: The project includes removal and piling of trees and slash on the parcel of land (15 acres of City property). Thin trees (primarily Lodge Pole Pine) to approximately 15' x 15' spacing, remove standing dead/downed wood debris, and prune all remaining trees to at least a 10' height retention or 1/3 live crown. The removed trees will be permitted to leave a maximum 6-inch tree stump. Retain tree species such as Douglas fir, Aspen, Ponderosa Pine, and Grand Fir unless otherwise identified and marked for removal. Retain shrubs and living undergrowth. The City of McCall encourages contractors to salvage merchantable wood. The awarded contractor will pile debris at the minimum height of 4' and 6' in diameter.

Project Partners: Wilderness Ranch Common Area Committee; Wilderness Ranch Volunteer Fire Department; Firewise Communities USA; Tarter, Stockton & Petzak; Mores Creek Ambulance		
Purpose Summary: Reasonable fuel reduction measures in Wilderness Ranch Common area that will reduce the risk of spread of fire and allow for ground-based fire fighting equipment to safely suppress wildfires under normal fire weather conditions. Trees should be thinned to a spacing that allows no crowns to touch. The largest, best-formed trees would be left, removing mainly younger age trees. Brush would also be cut. A recommended width of treatment area below the roads is 120 feet due to the steepness of the slopes. Reserved trees below the roads would be pruned up to 6 feet. Slash piles created will be chipped and burned using volunteer labor.

Total Structures Treated (Proposed): 81	Total Acres Treated (Proposed): 319	
Total Structures Treated to Date: 81	Total Acres Treated to Date: 319	
		Average Cost per Acre: \$ 261.66
Project Partners: Idaho Department of Lands, US Forest Service, Boise and Payette National Forests.		
Purpose Summary: Hazardous Fuels Reduction within the townsite of Yellow Pine and on the Eiugren Ranch. It consisted of pruning, thinning and burning outside the defensible space as well as simular practices around the buildings with additional efforts such as clearing roofs and porches of flammable or hazardous materails.(see notes below for federal land).		

Status of the IDL/FS State Fire Assistance (SFA) and National Forest Adjacent Community Fire Protection (*Formerly Stevens*) Hazardous Fuels Treatment Program Since 2001:

Cumulatively, from early 2001, at the inception of the National Fire Plan funding initiative, through the end of 2004, as reported in the IDL- HFT monitoring report, **6,123** acres have been treated under this program on non federal lands in Idaho. This is a conservative estimate of acreage accomplished, as only known accomplished acres are reported here.

3. Idaho Department of Lands Volunteer Fire Assistance Program (IDL/FS VFA Program)

The IDL VFA program is a cooperative cost-share program between US Forest Service State and Private Forestry and Idaho Department of Lands. The partners share costs of this program at a 50:50 rate. The purpose of this program is to assist with organizing, equipping, and training of local fire districts. In 2004, **39** rural volunteer fire departments received VFA awards totaling **\$170,314.70**.

4. Fuels for Schools Program

The Fuels for Schools (FFS) program in Idaho is a partnership program between the State Foresters, the Regional Foresters in Regions 1 and 4 of the USDA Forest Service, and the Panhandle Lakes RC&D. The purpose is to expand the use of small-diameter trees and slash removed in fire hazard reduction projects to heat local public schools and demonstrate the practicality, economy, and positive environmental impact of heating using biomass fuels. The program was announced in an open letter to Idaho's public school superintendents in June 2003.

The Forest Service has allocated a total of \$1,040,023 to the Idaho FFS program at this time. The funds include \$50,000 to assist the Idaho Department of Lands in providing staff for program development. The funds remaining are to be used to fund Fuels for Schools projects in Idaho.

Preliminary Assessment Engineering studies of twelve schools are in progress or have been completed by CTA Architects Engineers, Inc. The school districts are St. Maries, Plummer/Worley, Cascade, Grangeville, Priest River (West Bonner), Soda Springs, Adams County, Challis, Council, Bonners Ferry, Sandpoint, and Kellogg.

At the time of this report, one demonstration project has been selected, one project was declined by a community, and one project has been offered to a community and is pending a decision.

- Council School District, Council, ID. (Grant \$ 510,000)

After a school bond election defeat in May of 2004, the District regrouped and provided extensive education to the district's voters. In November, another bond election was held in which the people approved, by 74%, a 2.7 million dollar energy renovation project including a biomass boiler heating/air cooling system of four school buildings. Project is planned to be complete by fall of 2005.

(Photo Right: Council School Building Complex, Aerial View – Nov 2004mt)

- Boundary County School District, Bonners Ferry, ID. (FFS Grant \$303,600), sited in last years report, was returned by the District due to economic problems in the District which precluded completion of the FFS project.

- Kellogg School District has been offered a \$381,000 FFS grant. The District is in the process of selecting an ESCO contractor to accomplish an energy audit on the Districts school buildings. This will be completed shortly and selection of one or two schools for biomass heating conversion is anticipated by February 2005. Project completion is planned for fall of 2005.
